**Run # 1024- Oct. 11<sup>th</sup>, 2018**

**Hare(s): Urine My Way**

**Location:** Normadeau School

**Prelube:** JD's

**On On:** BP North

**Scribe:** Dripping Wet Gap

It was an exciting night to come out and hash as **Urine** my way was the hare for the evening!!

After introductions and giving one of the three runners a map (so they don't get lost) everyone was excited to start the run and follow the wonderful green chalk markings. The walkers were off with **Lady Ms Dazey** and **Just Anne** leading the way. After a few checks and a couple of right guesses these two wonderful harriets were sure that they were always choosing the right trail. SO at the next checking they decided not to listen to the Hare and went out on their own. They wanted to be the first at the HH so they could consume all that was waiting there.

After **Urine** called and called and called for them to come back we (as a group) decided to leave them on their own as they were following the running trail they should be fine. It wasn't too long after that when the walkers arrived at the HH. We waited and waited for our two FWB's to come but they never did. Just when we were thinking to call it a night we got a phone call because they were lost. So lost, in fact, that our Hare had to drive his car and go pick them up so they could join us for circle up. Pretty sure the only reason why they got picked up was because they had the keys for the swill....

As for the runners I have no idea what happened for sure. I heard over and over again “what happens on trail stays on trail”.

So here are some of the rumors. **Chips** was definitely happy to be the only man in this threesome. **Slippery** likes it slow and easy in the back and as for **Titties**, they had problems pulling her away from the red light district.

Punishments and rewards were given out but best of all **Just Anne** got named.

She will now forever and always be known as **LostAnnFound**.
