SCANDAL PLAGUES THE HASH OLYMPICS!

In this world of doping, cheating and unethical behaviour it seemed the Hash Olympics would remain above the fold. The drinking club with a running problem said they abhorred competition but apparently these were hollow words and the lure of glory (holes?) pushed behaviours worse than any real sporting event has ever seen.

Gender Determination Sends Winners to the Penalty Box

The prevalence of gender fraud meant we had to sex test our Gold and Silver medallists. Saliva test samples confirmed the presence of male DNA in **Slippery's** saliva and, correspondingly, the presence of female DNA in **Crash's** saliva. During a brief trial, the disgraced winners would only smile cunningly and state they had no idea how this could have happened. They were immediately stripped of their titles.

Performance Enhancing Drugs

The banning of the top two finishers would normally move the 3rd place finisher to 1st. But testing would also prove to be **TNT's** downfall. Steroids to try to fast-track her knee injury recovery led her on on down the road to scandal and disqualification.

Speaking of inappropriate drugs, a random sample also showed that **Lady Come See My Box** had large traces on Ivermectin in her system. Whether she was trying to get rid of Covid or worms is uncertain, but in either case it was meant for her horse and was not allowed in the Hash Olympics.

To magnify the severity of their crimes, all of the above had tried to mask their samples with excessive amounts of alcohol. Luckily, this is totally acceptable and actively promoted in the hash. All future sanctions were removed.

Paralympic Champion Exaggerates Disability

Our Paralympic champion **Wee Little Bladder** qualified for the Paralympics based on a supposed knee weakness. Medical exams revealed though that his knee was only weakened due to excessive begging and crawling. Surgical enhancements to his knee and his hip actually give him a distinct physical advantage over other hashers. When confronted with these findings, **Wee** was quick to put forward that, although he had no physical limitations,

he did qualify as a Paralympian as a result of mental deficiencies. However, we all know it is just a Welsh accent that makes him sound that way.

Beach Volleyball Cancelled Due to Uniform Controversy

The beach volleyball nets came down before the Hash Olympics even started. Although visitor **Brad** would have looked wonderful in the required beach volleyball uniform it was deemed to be sexist. Very sad we had to miss the short shorts.....

Equipment Tampering

Corked pickleball racquet. Or is it a paddle? Regardless, it appeared that either **Don't Know Dick** or her equipment was corked. Disqualified.

Illegal Lubricant. **Lady Ms Dazey** was caught red handed using an illegal lubricant that was probably meant to help her speed through the events. Instead it only helped her speed from a standing to a lying down position. Caught in the act and disqualified.

Soft balls. **Broken Boner** was the only hasher successful at the football kick. But an investigation found that his balls were severely underinflated, which must make them easier to kick. "Do your balls hang low ♪ ♪"

Trick frisbee. Some cheating hasher tampered with **Pucker's** frisbee just prior to the event, causing it to fly backwards instead of forwards. She didn't have a chance. We were just lucky she did not hit and scar TNT.

HOC Organizers Bribed

On top of all these athlete scandals, it was also discovered that the organizers were bribed, wreaking huge financial gain from hosting the Hash Olympics. At last count, **Deb** and **Sir Mobey's** pocketed almost \$2 from the empties left at the hash hold. If they are not punished, they will probably try to host again in 4 years. Or 3 years. Or whenever the next pandemic ends.
