Pucker's Garden Party Run

Run #1158

Hare: Pucker Sucker

Location: Garden Heights

Deb's Virgin Scribe

PRELUBE: Cuntsruction zone

Those who joined the pre lube were **Don't Know Dick, Broken Boner, Pucker Sucker, Crash Test Rummy, Slippery When Wet, Lady CumSee and Slr Mobey's of Dickus.** TNT chose to have some private time with her own Cuntsruction Zone and eventually joined us with a look of satisfaction.

THE RUN:

Pukahh set an admirable set of trails for runners and walkers alike. There was a lot of going up and a lot of going downs. Some were moist, some were dry. A few had some problems with going down at the start. Some even ended up on their back. Pukahh at one point was on her back with legs and arms in the air, apparently code word for that position from here on in is referred to as "*the turtle*".

Everyone ended up shaken not stirred. It had something to do with numbers 007, but there was also some Sesame Street alphabet talk going on.

Rumors were abound about grabbing of wood in the forest. The hands went up; they went

down. A lot of yanking and pulling but ultimately that wood came, and one runner was on her back breathless. It was all she could do to walk after that.

There was some whining heard from a few runners AKA **Slr Mobey's** about having to mount a hill. **CumSee** lived up to her name as she chose an opportune time to water the bush in front of spectators. Luckily there was no grizzly in the bush with CumSee, it was just a girl named Cindy. **Crash** expressed outrage that he was missing his throne ritual as returning RA.

A wonderful time was had by all. My back hurts!

OnOn,
Deb (known from this day on as **Grabbin' Wood**)
