Run #1190

Hares: WhoreSleigher & Wee Little

(or so it seemed.....) **Location: Michener Curling Arena**

PreLube: Murphs

We see you.....

Once again, we were manipulated by the man to go running on a Thursday night. Under the guise of free beer and some exercise we were exposed to mindless chatter and to mis and dis information. Luckily we were warned by **Slippery When Wet** and all came prepared with our stylish and brain-ray protective "head "gear. If anyone thought Slippery had done a lot of work to prepare and dress-up her box for the run, you are deluded. She has been preparing her box for years for events just like this.

We see you.....

Did it seem unusual to anyone that we had 2 visitors (Julie and Jesse), a visitor (Tommy 2Fingers) and a long lost cums from away hasher (Sir Cums a **Lot**) at the conspiracy run? No doubt they were infiltrators from QAnon or Alcoholics Anonymous or some similar subversive organization.

We see you.....

We see you.....

Was Tommy from Calgary? Or Coronation? And why did he not resemble Johnny 2Fingers but did resemble Kurt Browning? Mmmmm

We should have known from the start that there was something a little off on this run. Very wise hashers like **Curb Crawler** and **Prickly Bush** tried to warn us by coming for a pre-lube at Murph's but refusing to join us at the run. Were they already converted? Or did they know something we didn't?

At the run start things took another ominous turn. A new *RA* (*Reconfiguring Authority*?) ran things like a finely tuned piano – clear, accurate and well-organized. Doesn't seem like any hash run I've been at in the last 2 years. Most hashers had been prewarned and came out in their finest brain protecting hats. **Pucker Sucker** even used additional foil to protect her other important bits. **Wee's** hat kind of resembled a plunger – was it keeping the rays out or the shit in?

The run started off SNAFU. Many false trails, many hills, arrows and confusion. It seemed odd that many trail markings were on the wrong side? A sign no doubt. I heard that if you played the run backwards it sounded like "**Whore Sleigher** is a god, Whore Sleigher is a god....." Subliminal messaging at its finest.

Cum See and the Virgins wore Jeans. Who does that? The new uniform of the underground perhaps? Lots of chatter about the "vibrations" felt in special places every time we ran close to powerlines. Even the tin foil hat could not salvage Crash's hairline! Luckily we noticed the temperature drop as we ran closer to the end of the Flat Earth, it may have been the large coolers of Swill! Once again the Hash Hold saved us or we may well have fallen off the edge. At the circle the hares, virgins and visitors were celebrated. Just like old times, Sir Cums made TNT very wet – he has that effect on female hashers. PPPS Whatever you do, DO NOT clink on this link! https://media.giphy.com/media/

We somehow managed to make it safely back to Murph's where the only conspiracy was that nothing has changed since 1978. Wee apparently did "favours "for the kitchen staff there based on the creamy drip from his lips and how fast he got his food. Apparently also a common practice at the "Whistle stop "in Mirror12.

We see you.....

Stay safe, never repost this and if anyone asks we are not selling a book for profit!
