What in tarnation do we have here? I swear officer, I saw the whole thing unfold before my faces. Pregnant people getting attacked in the streets, a whole mess of them I say. And the crazy part is that they were going around in pairs cause they were tied together so I reckon it was some weird sex thang that got them all pregnant in the first place. Did I hear names? Uh...let's see here. They weren't normal names like Cletus or Bobbi Sue, they sounded like code names, almost like they were in some sort of cult. I heard **Wet Spot, Cum Honor, Slippery, Dixie Cup, Crash Test Rummy, Pussy Foot, Come See My Box, TNT, Cantilingus**. The only normal name I heard was **Mckenzie** but she was actin' just as fuckin' weird as the rest of them so she's probably in the process of getting converted into god knows what. As soon as one of them got un-pregnant, they would just get pregnant again right away. They must've been wearing some pretty fertile britches to pull that off. I lost track of them when they all ran into a trailer park. I assumed maybe they were finally going home but then I heard one of them yell "CAR!" at some poor girl on a bicycle so I knew they were still raising all sorts of hell.
